TALK LONG DISTANCE, THE CLEVER WAY

Main Features

- Walkie Talkie with OTAP (Over the air programming)
  GPS Tracking, Call recording with playback functions

- All functions and features of DMR
tire III trunking at no extra cost
APPLICATION

TalkPRO PoC (Press to Talk Over Cellular) walkie talkies do not require an Operating License or payment or recurring annual fees for License renewal. They work on the latest LTE / RoIP technology.

Since distance is no limitation, these radios can be used for city wide coverage by Municipal Corporations, Electricity Distribution Companies and Railways.

Large factories, City Malls with multiple basements, Logistic and Courier companies can get extensive coverage and will not require Repeaters or Boosters for covering hard to reach areas.
